

Put Your Customers in Control with CreditLock

Give your customers complete control of their credit and identity with Experian CreditLock with 1-Bureau Credit Monitoring.

What is CreditLock?

CreditLock empowers your customers, allowing them to easily lock their Experian credit report in real-time. With one click, your customers control who can access their credit data.

3 Things Happen When Your Customer Uses CreditLock:

1

Your customer will be informed if an identity thief tries to access their locked Experian credit file.

2

Credit information is not available to companies not currently doing business with the customer.

3

Trusted entities your customer already has a relationship with can continue to access necessary credit information.
