## About Experian

### Gain access to a world of insight

As a global leader in information assets and data analytics, Experian® provides governments with unparalleled insight and transparency, empowering them to fulfill their missions. Our industry-leading databases provide agencies with actionable information on more than 215 million consumers and 27 million businesses in the United States.

With more than 40 years' experience in information services, Experian has served public-sector organizations of all sizes. Our analytical acumen and consultative approach help governments make confident, precise decisions.

For more information, visit <http://www.experian.com/government>

Experian is the leading global information services company, providing data and analytical tools to clients in more than 65 countries. The company helps organizations to manage credit risk, prevent fraud, target marketing offers and automate decision making. Experian also helps individuals to check their credit report and credit score and protect against identity theft.

Experian plc is listed on the London Stock Exchange (EXPN) and is a constituent of the FTSE 100 index. Total revenue for the year ended March 31, 2009, was \$3.9 billion. Experian employs approximately 15,000 people in 40 countries and has its corporate headquarters in Dublin, Ireland, with operational headquarters in Nottingham, UK; Costa Mesa, California; and São Paulo, Brazil.

For more information, visit [www.experianplc.com](http://www.experianplc.com).

### Leverage Experian's GSA Schedule

Experian's FABS Schedule includes more than 50 products to innovatively help agencies meet their objectives. By using Experian's General Services Administration (GSA) Schedule, agencies take advantage of our expertise with GSA Schedule contracting and the benefits of GSA Schedule procurement. Experian's FABS Schedule offers products that make the following more effective:

- Information and analytics
- Identity management and fraud detection
- Revenue and debt collection
- Eligibility determination
- Investigation and location

Experian's FABS Schedule encompasses a wide variety of products and services, from credit reports and fraud detection products to data breach services. Experian's GSA Schedule deepens agencies' understanding of individuals, businesses, markets and economies:

- Consumer and business credit risk determination
- Employment screening and verification
- Confirmation of eligibility for programs and benefits
- Portfolio monitoring, analysis and scoring
- Identity proofing, risk-based authentication and credentialing
- Up-to-date contact data to locate hard-to-find individuals
- Collection scoring, monitoring and prioritization strategies

## Address Checker<sup>SM</sup>

Address Checker<sup>SM</sup> offers an affordable revenue cycle service to help dramatically improve address accuracy. Within seconds, Address Checker quickly verifies patient demographics using permissible data sources, with just a single keystroke. The service validates and corrects a patient's demographic information, including name, address, SSN, date of birth and phone.

Value pack quantity	Support price	Unit price
5,000	\$90	\$0.310
10,000	\$144	\$0.294
15,000	\$216	\$0.288
20,000	\$288	\$0.279
25,000	\$306	\$0.272
30,000	\$360	\$0.266
35,000	\$414	\$0.257
40,000	\$468	\$0.248
50,000	\$558	\$0.235
100,000	\$864	\$0.233
0-100,000	\$864	\$0.233
100,000-250,000	\$1,080	\$0.226
250,000 or more	\$1,440	\$0.210

## ALERTS

Provides comprehensive alerts that notify agencies of changes to an account within its portfolio. Extensive filtering options can be set to customize the alerts received. Alerts are invoiced in increments of 10.

<b>MONTHLY VOLUME</b>	
<b>1-500</b>	<b>\$0.37</b>
<b>501-1,000</b>	<b>\$0.36</b>
<b>1,001-5,000</b>	<b>\$0.34</b>
<b>5,001-10,000</b>	<b>\$0.33</b>
<b>10,001-25,000</b>	<b>\$0.28</b>
<b>25,001-50,000</b>	<b>\$0.22</b>
<b>50,001-100,000</b>	<b>\$0.19</b>
<b>100,001-250,000</b>	<b>\$0.14</b>
<b>250,001-500,000</b>	<b>\$0.10</b>
<b>500,001- +</b>	<b>\$0.07</b>

## Archive Programs

Archive services enable clients to analyze existing accounts or profile potential target groups to make informed credit decisions for portfolio growth. By observing portfolio behavior over time, clients can refine portfolio management tools to identify areas that present the highest potential profit — and the highest risk. Clients use archive data to develop custom scoring models, validate and adjust criteria of existing custom scoring models, develop and validate custom attributes, conduct testing, and analyze target groups such as nonresponders. With archived data, clients can generate powerful business intelligence about their accounts to make smart credit decisions.

### Access fees

The archive access fee represents base pricing and does not include processing/run charges or model charges, which are in addition to the base access fee. See the list below for archive access fees.

Number of archives	Archive access fee
1–5	\$3,600
5–10	\$2,880
11 or more	\$2,160

### Processing/Run charges

Number of records reviewed	Fee per record without raw trade data	Fee per record with raw trade data
0–250,000	\$0.0467	\$0.0648
250,001–500,000	\$0.0415	\$0.0576
500,001–750,000	\$0.0363	\$0.0504
750,001–1 million	\$0.0311	\$0.0432
1,000,001 or more	\$0.0156	\$0.0216

### Model charges

The first 1 million individual archive scores are at no charge. However, archive dates using FICO scores must be six months or older, and only the first 1 million FICO scores annually (Jan. 1 through Dec. 31) are at no charge (not per archive program). See the list below for model charges.

Number of accounts reviewed	Fee per record
0–1,000,000	No Charge
1,000,001–2,500,000	\$0.0108
2,500,001 or more	\$0.0072

### Archive Programs additional attribute pricing

The attribute pricing tiers are in addition to the first 100 Experian precoded attributes that already have been included in the access fee and run charges. The cost for updating or programming custom attributes is \$250 per attribute. See the list below for attribute pricing.

<b>Number of attributes appended</b>	<b>Fee per thousand</b>
1-10	\$10.80
11-20	\$18.00
21-30	\$21.60
31-40	\$25.20
41-50	\$28.80
51-60	\$32.40
61-70	\$36.00
71-80	\$39.60
81-100	\$43.20
101-200	\$46.80
201 or more	\$50.40

## Bankruptcy PLUS<sup>SM</sup>

This risk model built by Experian in 2005 predicts the likelihood of a consumer filing for bankruptcy within 24 months. Score range is 1 to 1400, where the lower the score, the lower the likelihood that a consumer will file for bankruptcy.

Online pricing	
Number of Accounts	Per transaction
1–9,999	\$0.28
10,000–99,999	\$0.18

<b>72,001 - +</b>	<b>\$3.86</b>

## Business Owner Profile

Business Owner Profile combines Experian's expertise in consumer and business credit reporting to give you the most accurate, current, and comprehensive business and proprietor credit information available. It's fairly common for proprietors to leverage their personal assets to meet business obligations. If a proprietor takes out a home-equity loan, that loan will not appear on a standard business credit report but it will appear on Business Owner Profile. By using Business Owner Profile, you can avoid the high risk associated with small businesses while identifying good credit risks. By using Business Owner Profile with any of our commercial credit reports, such as the Business Profile Report, you can better determine the overall creditworthiness of businesses.

Commercial credit reports

## Business Profile Report

Business Profile Report from Experian can help you make informed decisions quickly and easily. Business Profile Report presents a current objective picture of how a business manages its financial obligations. The report will help you make effective business decisions by providing actual trade payment experiences, public record information, company background, collections information, and comparative data placing a company's payment performance in context within its industry. Much of the information displayed on the report comes from actual businesses' accounts receivable information. As such, the information is reliable, accurate, and nonbiased allowing for an objective view of a company's overall financial health. For data segments that can be sold as a standalone offering, please refer to Data Segments (Report). *(Click here for pricing)*

## Business Summary Report

Business Summary report is a low-cost summary of a credit report that allows users to make quick effective assessments on low-balance account transactions of less than \$1,000. In addition, the report is frequently used to help verify whether or not a business is active and/or legitimate. Credit File Summary makes up the bulk of the Business Summary report. This section is a summary of the information within the full credit report and is similar to the Executive Summary section of the Business Profile Report. The following information displays when it is present in the credit report: number of tradelines, judgments, tax liens, bankruptcy indicator, UCC filings indicator, collections data indicator, bank information indicator, SIC code and description, corporate filing status, and company background information. *(Click here for pricing)*

## Collection Advantage<sup>SM</sup>

A powerful portfolio management tool now available online through Experian's eSolutions Web site. Collection Advantage<sup>SM</sup> via eSolutions helps you optimize your recovery efforts with instant, 24-7 access to debtor information from your desktop — all in one easy-to-use process that requires no additional programming resources, hardware or software.

This unique tool allows you to search for debtors in Experian's File One<sup>SM</sup> and MetroNet<sup>®</sup> databases to receive up-to-date contact information, credit scores and credit attributes to help you:

- Track debtors and locate skips more efficiently
- Identify debtors with the highest recovery potential
- Increase collectible dollars with less time and effort
- Reduce operating costs by streamlining your recovery process

## **Intelliscore Plus**

The Intelliscore Plus solution provides agencies more predictive results and the ability to score even more records. At the core of the score are new performance-based models powered by enhanced statistical algorithms and current data such as trade payment experiences, public records and demographic data – proven predictors of future risk. The result is a reliable measure of future business performance. Intelliscore Plus risk scores range from 0 to 100, with higher scores representing lower risk so agencies can assign a credit score to each account and use the score to set credit parameters.

Intelliscore Plus is designed to predict payment delinquency in excess of 90 days for businesses of all sizes and across all industries. With a commercial database in excess of 18 million U.S. businesses, Experian provides better small-business coverage than any other company. This robust database combined with Experian's scoring expertise make this score a powerful decision-support tool.

Intelliscore Plus is sold in conjunction with certain Business Information Reports. See the pricing included with the reports.

## INTERNATIONAL PROFILE REPORTS

Leverage Experian's worldwide network of partners to access credit information on businesses in more than 200 countries. Whether you're checking on a company in South America or processing an application from a prospect in Asia, Experian's International Developed Profile can provide the information you need to make sound decisions on issuing credit to companies overseas. With the United Kingdom Profile, get instant access to the most up-to-date and accurate business information on companies in the UK, including England, Scotland, Wales, Canada, and Northern Ireland. Delivered in real time via the Internet, the UK Profile provides credit information on millions of businesses. Our detailed report contains the most comprehensive business information from Experian UK, the leading provider of business information in the United Kingdom. Quickly spot potential business risks. Current, accurate, and objective data is necessary to get a complete picture of the financial health of prospective and current suppliers. International Profiles provides details on current payment behavior and historical payment trends for both company and industry. No other company provides more in-depth payment information on international businesses. International Developed Profiles are created to order, based on the freshest, latest information available from a variety of data sources and direct interviews with the subject company and its suppliers and lenders. Key features include financial statements, ownership and management, company history, industry trends, assets, liabilities, litigation, banking relationships, trade and supplier references, as well as scale of operations. This tool provides a recommended credit limit, financial summary and details, legal status, names of top management personnel, and details on the owner or parent company.

## MODEL VALIDATION

The model validation service quantifies performance of current model(s) and can be used to assess the performance lift of a —Challengeril model and to identify opportunities to generate incremental benefits through updated predictive models.

Activity description		Price
<b>Validation</b> Experian conducts a validation study of up to three models to assess model performance.	Validation of up to three models (assumes one archive)	\$10,800
	Each additional archive	
	Each additional portfolio or segment	\$3,600
	Each additional score	\$1,800
	Sample selection	\$1,800
<b>Data capture</b> (estimated)	Portfolio reports (not applicable if generated by client) Sample selection	\$5,400
	Experian conducts a validation study of up to three models to assess model performance.	\$1,800
<b>Validation</b>	Validation of up to three models (assumes one archive)	\$9,720
	Each additional archive	\$2,880
	Each additional portfolio or segment	\$1,620
	Each additional score	\$1,620
<b>Data capture</b> (estimated)	Sample selection	
	Portfolio reports (not applicable if generated by client)	\$4,860
	Sample selection	\$1,620
	Data extraction/aggregation	\$648
	Data extraction and sort/match/merge	\$720
	Credit bureau data aggregation (per bureau)	\$5,760
	Note: This estimate assumes data is provided via electronic media and in a form and format acceptable to Experian specifications (standard label IBM compatible).	
<b>Score Performance Reports</b>	First performance report	Included
	Each additional performance report	\$504
	Matrix reports	\$1,800

**Model validation** (continued)

<b>Optional results meeting</b>	Experian can present the results of the validation to client.	<b>Price</b>
	Experian offices	\$1,440
	Client offices	\$2,160
<b>Experian travel expenses</b>	Experian requests reimbursement for all reasonable travel expenses incurred by Experian during the course of the project.	Actual expenses

## Payment Advisor Suite®

Payment Advisor Suite® from SearchAmerica®, a part of Experian, consists of three industry-leading services that enable organizations to properly identify and classify patients and initiate the corresponding workflow. Payment Advisor® provides a prediction of payment likelihood. Charity Advisor® screens patients for charity/uninsured discounts, produces the necessary documentation and automatically calculates discounts based on each hospital's unique charity/uninsured discount policy. Medicaid Advisor<sup>SM</sup> screens for eligibility for Medicaid and other government programs and allows hospitals to focus their staffs' Medicaid enrollment efforts on only those patients most likely to qualify for Medicaid. Payment Advisor Suite returns results in real time or on the next day, depending on workflow. Hospitals can select the timing that best suits each area of their organization — emergency room, preregistration, etc. — and their budget.

## Performance Insight<sup>SM</sup>

This consulting and monitoring service for new applicant scorecards provides a thorough periodic checkup of financial scorecards and their portfolio looking at their population stability, decision management and scorecard performance.

Performance Insight<sup>SM</sup> provides tools to help government agencies manage their financial objectives and make adjustments when necessary.

	Activity	Price
<b>Setup fee</b>	One-year contract	\$10,800
<b>Monitoring and consulting service</b>	The Performance Insight monitoring and consulting service has a three-year minimum term. Fee includes: Suite of standard reports delivered monthly One written review of the client's monitoring reports (standard and customized) once every three months Phone consultation on quarterly written review Note: Pricing is based on the number of scorecards and populations included in the service.	
	First scorecard, one population per quarter	\$5,400
	Second scorecard or population per quarter	\$3,600
	Each additional scorecard or population per quarter	\$25,776
<b>Data processing</b>	Experian processes data files as provided by the government agency each month and maintains the data in a monitoring database. If the data is not provided via electronic delivery, there will be a charge of \$500 per iteration. If the data is not provided in a standard format, there will be a charge of \$5,000 per iteration.	Included
	Sort/Match/Merge (if required) <b>Man-day rate</b>	\$1,800
<b>Customized reports</b>	Experian can produce reports in addition to the standard reports included with Performance Insight. Pricing for additional reports will be quoted on a case-by-case basis. <b>Man-day rate</b>	\$1,800

## Experian PINpoint Services<sup>SM</sup>

Experian PINpoint Services<sup>SM</sup> enables the government to view all relationships belonging to a single customer or supplier and provides benefits throughout the program life cycle, such as more effective risk management and collections efforts.

Size of overall account base	Price per 1,000 input records (\$2,000 minimum)
<1M	\$28.80
1M – < 5M	\$21.60
5M – < 10M	\$14.40
10M – < 15M	\$7.20

### Subscription service for PIN Merge Updates and New Accounts

Subscription period	Price per job
Quarterly	\$3,600
Monthly	\$1,080

## PORTFOLIO MONITOR<sup>SM</sup>

Provides you with the latest-breaking derogatory changes in business financial status weekly and bankruptcy filings daily. With early detection of companies' negative payment trends, you will minimize overall risk. You can receive these warnings: bankruptcies, tax liens & judgments, increasingly late payments, collection agency activity, significant past-due activity with newly reported tradelines, UCC filings, and derogatory information from other companies. Portfolio Monitor allows you to filter the accounts you want to monitor as well as the types of business warnings you'd like to receive. This service monitors business owners and guarantors and provides you with daily alerts for public record (including bankruptcies), derogatory payment information, new inquiries and trades on file, collection information, and different address on file. E-mail messages can be sent to you, automatically notifying you of any new warnings received on your monitored accounts list. To receive detailed information on any of these flags, simply view the Warning Detail Report and/or order a Business Profile or Intelliscore Plus report from Experian to help you decide what action to take.

<b>Portfolio Monitor</b>		
<b>Number of accounts monitored</b>	<b>Contributor</b>	<b>Non-contributor</b>

One-time setup fee	\$150	\$350

## PORTFOLIO SCORING

Portfolio Scoring identifies risks and opportunities within your portfolio. When evaluating the creditworthiness of your existing customers, you need to quickly and efficiently review every account in your portfolio while prioritizing account management activities. Portfolio Scoring from Experian applies a statistical risk score to each account in your customer portfolio and returns credit, public record and demographic attributes, enabling you to make quick, easy credit decisions. By using Portfolio Scoring, you can reduce delinquencies and write-offs and gain visibility to opportunities. Overdue accounts and missed collection opportunities often result in financial losses. This tool allows you to see up-to-date information on your customers, including how they are paying their other creditors. This helps you make timely decisions to proactively reduce your exposure to risk.

As an add-on to Portfolio Scoring, agencies also have the option of purchasing the Tax ID/Employer Identification Number (EIN). Product descriptions and pricing are located below.

In addition to the standard identification information that is part of the standard portfolio scoring layout, Experian is also able to provide Tax ID/EINs. This information is sourced from numerous sources including public record and other proprietary sources.

Tax ID/EIN pricing is offered two ways — per record (batch) and subscription based (extract).

**Batch** — agencies send in a list to Experian and Experian appends the data that's being requested. **Extract** — Experian provides a full copy (extract) of the Tax ID file.

The records in this file

- include: Business
- ID number
- Business Name
- Business Address
- Up to 5 Tax IDs
- Tax ID Type Code
- Tax ID Display Code

For subscription based (extract) pricing, a one-time license fee of \$30,600 will be charged in the event an agency does not purchase option years.

### Pricing

The pricing grid below shows pricing for Portfolio Scoring with Intelliscore Plus.

The pricing for Tax ID Append/Employer Identification Number (per record pricing) is in addition to the Portfolio Scoring product option that is chosen.

Subscription pricing for Tax ID Extract has also been included.

### Portfolio Scoring with Intelliscore Plus

Prices are based on the frequency that each unique record is scored (monthly or quarterly)

Frequency	Price per unique record*
Monthly	\$0.27
Quarterly	\$0.51

\*Note: Criteria used to restrict population, \$2,000 per criteria set. Minimum \$500 per order.

## PORTFOLIO SCORING VIA BUSINESSIQ

Scoring models to assess the risk level of an entire portfolio as well as see details on each individual account. Portfolio Scoring is invoiced in increments of 10.

<b>MONTHLY VOLUME</b>	
1-250	\$7.49
250-500	\$5.46
501-10,000	\$1.21
10,001-50,000	\$1.02
50,001-100,000	\$0.90
100,001-500,000	\$0.78
500,001- +	\$0.53

## Precise ID<sup>SM</sup>

Experian's Precise ID<sup>SM</sup> services combine state-of-the-art identity proofing, risk-based authentication, and out-of-wallet question tools on a single platform that uses industry-leading data sources to provide an accurate picture of each applicant. It also provides analytics that produce actionable risk-based authentication and fraud scores for use in identity proofing processes. This information enables institutions to make automated and consistent risk-based decisions to mitigate the cost of fraud via rapid transaction processing and low false-positive rates. Fraud and identity risk scores quickly and accurately assess the level of fraud risk and confidence in authentication through underlying score elements to ensure a customer's identity.

Precise ID<sup>SM</sup> harnesses Experian's vast and varied data assets to deliver detailed identity proofing verification results. Via fully configurable out-of-wallet questions, advanced analytics and flexible rules-based decision technology, agencies can configure a tailored risk-based identity proofing solution that combines efficiency, accuracy and positive user experience.

## Precise ID<sup>SM</sup> – Identity Screening Products

### Precise ID<sup>SM</sup> for Identity Screening

Precise ID for Identity Screening offers a broader depth of noncredit data tools for identity screening and account opening. This product option validates data provided against known sources to determine the identity of the consumer.

This option returns a non-FCRA regulated identity risk score comprised of the following sub-scores:

- ID theft score — predicts the likelihood that the application is originating from the true consumer. This score is an actionable score with additional reference material available.
- Validation score — Predicts the likelihood that the identification information supplied (i.e., name, address, Social Security number, phone number, date of birth, etc.) is a valid combination that has been seen previously within one or multiple data sources

Monthly Processing Volumes		Transaction Price
1	1,000	\$0.23
1,001	5,000	\$0.22
5,001	10,000	\$0.20
10,001	20,000	\$0.19
20,001	50,000	\$0.17
50,001	100,000	\$0.16
100,001	200,000	\$0.15
200,001	500,000	\$0.13
500,001	or more	\$0.11

### Precise ID<sup>SM</sup> for Identity Screening with Knowledge IQ Questions

This option includes the Knowledge IQ questions with the identity screening score

Monthly Processing Volumes		Transaction Price
1	1,000	\$0.54
1,001	5,000	\$0.51
5,001	10,000	\$0.48
10,001	20,000	\$0.45
20,001	50,000	\$0.42
50,001	100,000	\$0.39
100,001	200,000	\$0.38
200,001	500,000	\$0.35
500,001	or more	\$0.32

### Precise ID<sup>SM</sup> for Identity Screening with Knowledge IQ Questions Add-on

This option leverages the power of the Precise ID for Identity Screening score. Questions are presented only if client process warrants based on initial identity authentication results. Prices are additional to the Account Opening score prices.

Monthly Processing Volumes		Transaction Price
1	1,000	\$0.36
1,001	5,000	\$0.33
5,001	10,000	\$0.31
10,001	20,000	\$0.28
20,001	50,000	\$0.26
50,001	100,000	\$0.25
100,001	200,000	\$0.24
200,001	500,000	\$0.22
500,001	or more	\$0.21

#### Additional fees:

<b>Implementation fee</b>	\$8,000	XML implementation — one-time fee
	\$3,000	Web implementation — one-time fee
<b>Add-on development</b>	\$250	Per hour
<b>Add-on analytical consulting</b>	\$350	Per hour
	\$2,500	Per day

## Precise ID<sup>SM</sup> for Account Opening

Using an aggregated score based on Fair Credit Reporting Act (FCRA) regulated data to predict identity theft and first-party fraud risk, this score allows for quick responses in a variety of lending situations. Experian is one of the only providers today to offer an FCRA-compliant fraud score. This enables clients to decline a consumer for probability of fraud based on the Precise ID<sup>SM</sup> score. Without this, a true decline decision cannot be made in an FCRA environment.

Through Precise ID for Account Opening, Experian provides industry-leading analytics that produce actionable fraud scores that predict various fraud behaviors. Identity proofing via Precise ID for Account Opening validates data provided against known sources to determine the identity of the consumer via:

- A Precise ID aggregated authentication risk score which is comprised of the following underlying scores:
  - ID Theft score predicting the likelihood that the application is originating from the true consumer.
  - First-payment default predicting the likelihood that a customer will default on the initial and subsequent payments associated with an account.
  - Validation score — predicts the likelihood that the identification information supplied (i.e., name, address, SSN, phone number, date of birth, etc.) is a valid combination that has been seen previously within one or multiple data sources.

Precise ID for Account Opening provides an authentication and verification tool that is based on multiple data sources, pairing credit and noncredit information. The score is FCRA-compliant and is available standalone, with a National Fraud Database<sup>SM</sup> inquiry, or it can be returned with a credit report.

Monthly Processing Volumes		Transaction Price	Monthly Minimum
1	1,000	\$0.58	\$180
1,001	5,000	\$0.54	\$432
5,001	10,000	\$0.51	\$1,008
10,001	20,000	\$0.47	\$1,800
20,001	50,000	\$0.44	\$3,960
50,001	100,000	\$0.41	\$7,704
100,001	200,000	\$0.38	\$14,688
200,001	500,000	\$0.36	\$32,328
500,001	or more	\$0.34	\$64,152

### Precise ID for Account Opening with Knowledge IQ Questions

This option includes the Precise ID<sup>SM</sup> for Account Opening score with Knowledge IQ questions.

Monthly Processing Volumes		Transaction Price	Monthly Minimum
1	1,000	\$0.96	\$180
1,001	5,000	\$0.91	\$720
5,001	10,000	\$0.86	\$1,656
10,001	20,000	\$0.81	\$3,096
20,001	50,000	\$0.76	\$6,696
50,001	100,000	\$0.71	\$13,464
100,001	200,000	\$0.67	\$25,416
200,001	500,000	\$0.63	\$55,728
500,001	or more	\$0.59	\$111,096

### Precise ID for Account Opening Knowledge IQ Questions Add-on

This option leverages the power of the Precise ID for Account Opening score. The questions are presented only if client process warrants based on initial identity authentication results. Prices are additional to the Account Opening score prices.

Monthly Processing Volumes		Transaction Price	Monthly Minimum
1	1,000	\$0.64	\$180
1,001	5,000	\$0.61	\$504
5,001	10,000	\$0.57	\$1,152
10,001	20,000	\$0.54	\$2,088
20,001	50,000	\$0.50	\$4,464
50,001	100,000	\$0.46	\$8,784
100,001	200,000	\$0.44	\$16,776
200,001	500,000	\$0.41	\$36,576
500,001	or more	\$0.39	\$74,304

## Precise ID for Account Opening with Credit Card Verification

In addition to Precise ID authentication output, this additional screening tool verifies that a credit card number is associated with a specific consumer identity.

Monthly Processing Volumes		Transaction Price	Monthly Minimum
1	1,000	\$0.78	\$180
1,001	5,000	\$0.71	\$576
5,001	10,000	\$0.66	\$1,296
10,001	20,000	\$0.61	\$2,304
20,001	50,000	\$0.56	\$4,968
50,001	100,000	\$0.52	\$9,864
100,001	200,000	\$0.49	\$18,576
200,001	500,000	\$0.45	\$39,384
500,001	or more	\$0.41	\$77,976

### Additional fees:

<b>Implementation fee</b>	\$8,000	XML implementation — one-time fee
	\$3,000	Web implementation — one-time fee
<b>Add-on development</b>	\$250	Per hour
<b>Add-on analytical consulting</b>	\$350	Per hour
	\$2,500	Per day

## Precise ID<sup>SM</sup> for Compliance

Precise ID for Compliance is for clients focused solely on basic compliance-oriented consumer authentication capabilities, such as name, address, phone, SSN, date of birth and driver's license verification. Precise ID for Compliance offers basic identity verification, additional Fraud Shield<sup>SM</sup> indicators associated with a consumer's profile, and flexible decisioning to return one or more compliance-oriented accept or refer decisions. These decisions are based on a client's interpretation of such example compliance requirements as the USA PATRIOT Act, E-SIGN and the FACTA Red Flags Rule and do not incorporate any analytics or additional risk factors.

Monthly Processing Volumes		Transaction Price
1	1,000	\$0.10
1,001	5,000	\$0.09
5,001	10,000	\$0.09
10,001	20,000	\$0.08
20,001	50,000	\$0.08
50,001	100,000	\$0.08
100,001	200,000	\$0.08
200,001	500,000	\$0.08
500,001	or more	\$0.07

### Additional fees:

<b>Implementation fee</b>	\$8,000	XML implementation — one-time fee
	\$3,000	Web implementation — one-time fee
<b>Add-on development</b>	\$250	Per hour
<b>Add-on analytical consulting</b>	\$350	Per hour
	\$2,500	Per day

## Predictive Intelligence Dashboard<sup>SM</sup>

Predictive Intelligence Dashboard<sup>SM</sup> enables revenue cycle executives and managers to have immediate access to reports that monitor and measure their patients' demographic accuracy, payment prediction and automated charity enrollment. This reporting and forecasting product allows hospitals to view scorecards showing key performance indicators (KPIs) at a glance; use powerful data mining to quickly view comprehensive financial information about patients; highlight negative and positive trends and areas in need of improvement across the health system or by facility; drill down to patient-level detail to identify processes needing further analysis and/or improvements; report details on registration errors corrected, fraud identified and the current status of each account in the financial clearance workflow; and predict what a KPI (i.e., bad debt, charity percentage) will be 30, 60 or 90 days in the future.

<b>Price</b>	\$1,317.60 per month per account (this is a per-customer charge, not a per-facility charge)
--------------	---

## Premier Attributes<sup>SM</sup>

Premier Attributes is Experian's next generation of core consumer credit attributes. Experian has dedicated nearly three years redefining every attribute, optimizing all available data elements to enhance lender decisioning power. The new set of attributes is a robust offering with more than 800 attributes, providing data at a more granular level than ever available before. The new offering helps lenders compete and maintain profitability in the current economic environment.

## RecoveryScore<sup>SM</sup>

RecoveryScore<sup>SM</sup> is a behavioral model that predicts the likelihood a consumer will make a payment on a collection account. The score range is 400 to 800, where the higher the score, the more likely a client will be able to collect on a collection account.

Description	Price per transaction
National accounts	\$0.29
Named accounts	\$0.32
National Resource Center Accounts	\$0.36

## RETURN MAIL

The Return Mail service, typically used in a hospital's back-end billing office, retrieves accurate patient address information when the U.S. Postal Service® returns invoices or statements due to incorrect address information. All addresses are CASS Certified™ and allow for immediate return processing. Return Mail enables hospitals to quickly obtain correct address information so invoices can be processed faster and to immediately launch the mailing process for the corrected mail, even when partial or limited information has been provided.

Return Mail — NEXT DAY BACK-END

## Strategy Management<sup>SM</sup>

This is a business rule, scoring and decision strategy software for configuring and executing credit risk-based strategies on a portfolio or supplier base for any of the following supplier life cycles (acquisitions, customer management and collections/recovery). The software has a PC component that is used to create, build, change and deploy business rules and strategies from the desktop. The software also has an executable engine that is installed on the server to integrate with the client's other internal systems, such as CRM, application processing system or collections system.

Description	Price
License and maintenance*	\$54k-\$252k + 15.84% maintenance
Implementation	\$144k-\$360k
Labor rates (per day)**	\$1,260-\$1,800/day

\*License, maintenance and implementation dependent upon intended use and scope of buyer requirements

\*\*Labor rates dependent on type of resources required for project

## Strategy Tree Optimization

Strategy Tree Optimization software allows organizations to build strategy trees based on optimized strategies built via the Marketswitch Optimization<sup>SM</sup> patented mathematical algorithms. The result is maximized decisioning with the ability for an organization to compare the strategy tree to the optimized results and determine if the tree is acceptable or if it should be developed further in order to achieve results closer to the original optimization. This real-time analysis allows organizations to fine-tune strategies frequently, ensuring risk is within their acceptable tolerance.

Pricing tables	Price

## Trend View<sup>SM</sup>

Trend View<sup>SM</sup> is a complex and powerful value-added tool that contains 24 months of balance history information at the tradeline level. Trend View contains specific trade-type information (bankcard, retail, unsecured line of credit, second mortgage and home-equity line of credit) that is able to identify different types of consumer behavior by way of six proprietary algorithms: Rate Surfer, Revolver, Transactor, Consolidator, Seasonality, Non-Activator. These tradeline patterns help clients determine when to make the most appropriate and profitable offers based on the consumer's past behavior.

### Generic Trend View attributes

- \$2,250 job minimum
- Applicable Prescreen and Quest<sup>SM</sup> minimums apply
- <25 Attributes
- 25+ Attributes (up to 72 attributes)

Records	< 25 Attributes	25 + Attributes
0-50,000	\$0.022	\$0.0281
50,001-200,000	\$0.017	\$0.0216
200,001-500,000	\$0.014	\$0.0180
500,000-1,000,000	\$0.010	\$0.0130
1,000,001-2,500,000	\$0.005	\$0.0065
2,500,001-5,000,000	\$0.003	\$0.0032
5,000,001-15,000,000 +	\$0.001	\$0.0017

**Custom Trend View attributes carry a one-time development fee of \$1,000 in addition to the rates listed above.**

### Trend View segment codes

\$2,250 job minimum

Applicable Prescreen and Quest<sup>SM</sup> minimums apply

Records	Price per segment code
0-50,000	\$0.022
50,001-200,000	\$0.020
200,001-500,000	\$0.018
500,000-1,000,000	\$0.016
1,000,001-2,500,000	\$0.014
2,500,001-5,000,000	\$0.013
5,000,001-15,000,000 +	\$0.009

## Trend View ZIP+4™

Records	All Attributes
0–5,000,000	\$9,000
5,000,001–15,000,000	\$0.0027
15,000,001 or more	\$0.0020

### Archive Pricing – Test Pricing

Trend View Attributes appended to an Archive job

**For Archive processing fees, refer to fees identified in the Archive pricing section.**

Records	< 25 Attributes	25 + Attributes
0–50,000	\$0.0280	\$0.031
50,001–200,000	\$0.0220	\$0.024
200,001–500,000	\$0.0180	\$0.020
500,000–1,000,000	\$0.0120	\$0.014
1,000,001–2,500,000	\$0.0060	\$0.008
2,500,001–5,000,000	\$0.0030	\$0.004
5,000,001–15,000,000 +	\$0.0010	\$0.001

Trend View Segment Codes appended to an Archive job

Records	Segment code	Archive processing
0–50,000	\$0.024	Refer to Archive processing fees located in the Archive pricing section
50,001–200,000	\$0.022	
200,001–500,000	\$0.020	
500,000–1,000,000	\$0.018	
1,000,001–2,500,000	\$0.016	
2,500,001–5,000,000	\$0.014	
5,000,001–15,000,000	\$0.010	
15,000,001 or more	\$0.008	

### Test Pricing and Turnarounds

Product Marketing works with all parties to develop pricing and turnaround times.

- Testing minimum is \$10,000
- Turnaround is two to three weeks, depending on the number of Archive periods requested

### Testing terms and conditions are as follows:

- Single live or archive file
- All information is submitted up front
- Clients receive Trend View attributes or segment codes only
- Experian drops identity and client sequence numbers
- Subsequent test files represent new test jobs

## TRIPLE ADVANTAGE Monitoring (Premium)

This product is delivered to qualified\* individuals using an online or offline application process and a single-use, Access Code. Below is a description of Triple Advantage benefits, which are subject to change:

Automatic daily monitoring of credit reports from all three national credit reporting companies: Experian, Equifax and TransUnion.

Email or U.S. mail monitoring alerts to inform the Individual of key changes to his or her credit reports, including new inquiries, newly opened accounts, delinquencies, address changes and public record items.

Monthly —no hitll alerts, if there have been no important changes to the Individual's credit report.

Unlimited online and offline access to the Individual's Experian credit report and score for the duration of the membership.

Score Simulator — helps Individuals understand how factors on their credit report impact their credit score. Consumer-friendly credit report with detailed explanations and descriptions.

- Monthly Score Trending of the Individual's Experian score.
- Informative credit-related articles.
- One free three-bureau credit report and score upon enrollment.
- Toll-free customer service.
- Toll-free access to fraud resolution representatives and support should the Individual become a victim of identity theft after he or she enrolls in Triple Advantage.

Assistance from fraud resolution representatives who will walk the Individual through the process of resolving problems associated with credit fraud or identity theft and (i) assist with understanding credit reports and alerts, (ii) assist in contacting law enforcement officials, (iii) receive and make calls with the Individual and (iv) contact financial institutions and creditors as required. All assistance is provided as appropriate on a case-by-case basis.

\$25,000 identity theft insurance coverage provided by a designated third-party insurer.

Number of Credit Monitoring enrollments	Triple Advantage (Premium) (per enrollment/per redemption)
1–5,000	\$31.95
5,001–10,000	\$31.45
10,001–25,000	\$30.95
25,001–50,000	\$29.95
50,001–100,000	\$28.95
100,001–250,000	\$27.95

—Per Redemptionll — The fees are due with regard to the actual number of Access Codes redeemed by Individuals.

*The amount of insurance coverage provided to individuals is subject to change at any time, and insurance will not be provided to any resident of any state where prohibited by applicable law. Customer agencies shall verify, at the task order level, the applicability of identity theft insurance in accordance with existing state laws.*

## Triple Alert<sup>SM</sup> Monitoring

This product is delivered to qualified\* individuals using an online or offline application process and a single-use Access Code. Below is a description of Triple Alert benefits, which are subject to change:

Automatic daily monitoring of credit reports from all three national credit reporting companies: Experian, Equifax and TransUnion.

Email or U.S. mail monitoring alerts to inform an Individual of key changes to his or her credit reports, including new inquiries, newly opened accounts, delinquencies, address changes and public record items.

Monthly —no hitll alerts, if there have been no important changes to the Individual's credit report.

Informative credit-related articles.

Toll-free customer service.

Toll-free access to fraud resolution representatives and support should the Individual become a victim of identity theft after he or she enrolls in Triple Alert.

Assistance from fraud resolution representatives who will walk the Individual through the process of resolving problems associated with credit fraud or identity theft and (i) assist with understanding credit reports and alerts, (ii) assist in contacting law enforcement officials, (iii) receive and make calls with the Individual and (iv) contact financial institutions and creditors as required. All assistance is provided as appropriate on a case-by-case basis.

Customer agencies shall verify, at the task order level, the applicability of identity theft insurance in accordance with existing state laws.

## VANTAGE SCORE

This risk model built by all three credit reporting companies (Experian, Equifax and TransUnion) in 2005 predicts the likelihood of a consumer becoming 90 days delinquent or worse on any trade within 24 months. The model is available in tri-bureau form, and the score range is 501 to 990, where the higher the score, the lower the risk.
